JOB REFERENCE: DESIGNER / DEVELOPER

Dear Helene,

As a web design and development student with a background in electronics and IT from my military service, I offer a unique blend of technical expertise and creative problem-solving. I have hands-on experience with HTML, CSS, JavaScript, WordPress, and UX/UI design principles, allowing me to create responsive, user-friendly websites that prioritize both functionality and aesthetics. My academic and personal projects have sharpened my ability to design and develop intuitive digital experiences tailored to users' needs.

In addition to my technical skills, my military background has taught me discipline, adaptability, and effective teamwork—traits that are essential for thriving in fast-paced environments. I am passionate about web development and am eager to bring my skills and dedication to your team. I'm confident that my combination of creativity, technical proficiency, and strong work ethic would make me a valuable asset to your company.

Sincerely,
Kalyn Daugherty
